

upon viewing the body complaining that the cause of death was not natural. there was twisted neck, Sodom and rape which were evident.

The family decided that we do postmortem on the body to clear doubt. On 21st December 2014 postmortem was carried out on the body and it was true that the death was not of natural cause. Upon seeing the outcome of the postmortem. I went to Changamwe police station where I reported the case ride OB 104/29/12/14. I did record my statement. The OCS Changamwe assigned me one CPL Cheruiyot who was to investigate the case CPL Cheruiyot became unreliable and I had to talk to the OCS again the OCS summoned my brother and his wife to his office and when I called him he said that there were other witness who were to record this statements.

I did call him later but the OCS terminated my call I became suspicious of what was going on. My brother Samuel and his wife comeback home at Kakoneni but I am in dilemma as to the position of the case. The family members became furious and wanted to lynch Samuel and his wife I did control them and reported the issue at Malindi police station ride OB 46/15/1/2014.

Attached are relevant copies of documents for verification.

- Copy of postmortem
- Letter of reference from Makupe police station to OCS Changamwe.
- Makupe occurrence book number entry.
